Step 04

ATTACH ANTI-TIP BRACKET TO WALL.

Wall anchors and fasteners are included for installation into drywall. Please consult your local hardware professional to determine the hardware best suited for your wall type.

If the mounting locations are positioned on a stud, the installation of wall anchors may be skipped. Instead, drill **7/64”** pilot holes in the marked positions and install anti-tip bracket with provided hardware as shown.

If the mounting locations are not positioned on a stud, drill **15/64”** holes into the marked locations and press wall anchors into the drilled holes and install anti-tip bracket with provided hardware as shown.
