Step 01

ASSEMBLE SHELF

The shelf height may be assembled either low or high on the stem. Attach the shelf and hardware in the orientation shown depending on desired shelf height.

High shelf

Low shelf

Step 02

INSTALL WALL SHELF

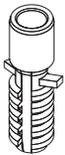

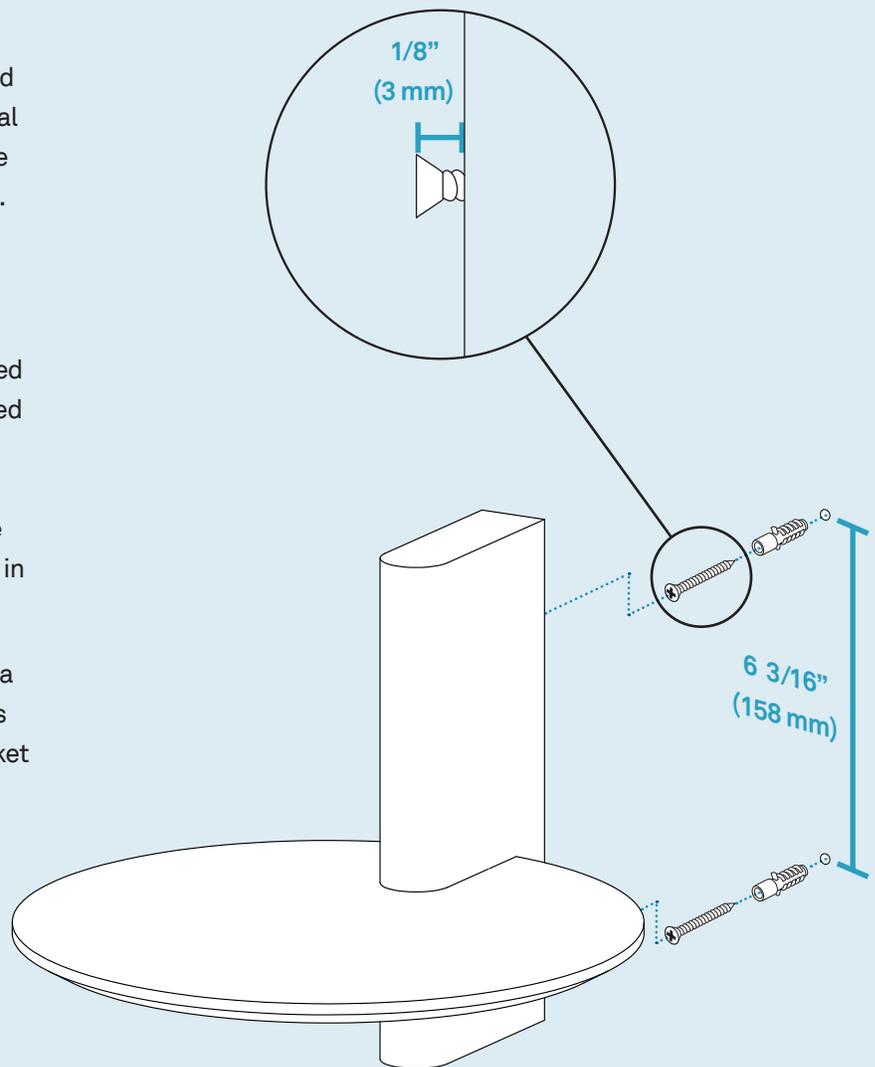

Wall anchors and fasteners are included for installation. Please consult your local hardware professional to determine the hardware best suited for your wall type.

Mark the mounting locations with the vertical distance as shown.

If the mounting location is not positioned on a stud, drill a $\frac{3}{16}$ " hole in the marked location and insert wall anchor. If the mounting location is located on a stud, this step of installing an anchor may be skipped. Instead, drill a $\frac{1}{16}$ " pilot hole in the marked position.

Attach the fastener to the wall, leaving a gap as shown. Make small adjustments to the gap distance if the hanging bracket does not align correctly.

Hang stem on fasteners to complete installation.

Additional Information

CLEAN

Clean with a slightly damp, soft cloth. To remove dirt and fingerprints, use a quality cleaner formulated for wood furniture. Wipe completely dry with a soft cloth.
